Says Carriers Should Not Own Factory Stock.

ROADS NOW UNLOADING.

Washington, Nov. 28,-The nterstate Commerce Commis sion has approved the general purpose of a bill introduced by Representative A. O. Stanley, prohibiting joint ownership among common carries and shippers. This report, which has been received by the Commerce Committee of the House, is here presented for the first time.

One of the phases of the anti trust question which will demand the attention of the coming session of Congress involves an extension of the "Commodities clause" of the present railroad act. This is the objective point of the Stanley bill.

The bill was referred to the International Commerce Commission by the Interstate and Foreign Commerce Committee arating the control of railroads

What Bill Prohibits.

The Kentuckian's bill prohibits mining or manufacturing interests from "owning in whole or in part, directly or indirecty," any stock in a railroad engaged in interstate commerce, and is, therefore, a sweeping extension of the commodities section of the present act.
